May Stay at Matteawan. Whether Thaw shall remain at Matteawan after his sixty-day probation or observation period rests with the State Board of Lunacy. They may agree 10 his transfer to some private institution where he will be kept under strict sur veillance. There is little likelihood that they will agree to any such transfer. Mr. Littleton would then have a chance to go into the Supreme Court and secure an order cailing for the production of Thaw for a public examination as to his sanity. This course has been followed by the Brooklyn blackmailty, Russell, who appeared before Justice Giegerich a few months are in an unsuccessful effort to lift the sentence that holes him in prison.

Observation Strengthens Theory.

Dr. Ferris, while he has not proclaimed his belief in Thaw's insanity, has made no particular effort to hide his opinion. But it has not been known that he and other alienists consider Thaw a victim of paranola. The opinion that Thaw suffers from this form of insanity was gained soon after his arrival at Matteawan Asylum, and continued observation has served and continued observation has served strengthen it.
